About Nick

Nicolai Sarad advises financial institutions, developers, equity investors and governmental agencies in the United States and internationally on project structuring, development and financing, acquisitions and dispositions, and restructurings, as well as day-to-day operations and maintenance advice. He focuses on power, renewable and sustainable energy (including solar, wind, energy storage, sustainable fuels and fuel cells) and infrastructure projects (including mobility and social infrastructure public private partnerships), water, mining, process plants and major manufacturing. Mr. Sarad also represents lenders and borrowers in secured and unsecured corporate, asset-based and structured financings. His recent experience includes numerous transactions utilizing tax incentive financing.

Recent Notable Matters

MUFG — structuring and closing of two separate back-leverage term loan financings of portfolios of solid oxide fuel cell power generation projects with two affiliated borrowers
