

How a Biden Administration Could Reverse Trump's Climate Legacy

Media Mentions

July 28, 2020 | *E&E News* | 1 minute read | Washington, DC

Bracewell's **Jeff Holmstead** spoke with *E&E News* on how climate change policies would be different under a potential Biden Administration.

"I think there's no doubt that the Biden administration would come in and revoke the SAFE rule and do its own rulemaking to set CO² emissions standards for cars and trucks," said Holmstead, a former EPA air chief, referring to the current Department of Transportation fuel economy standard.
