

# October Environmental Essentials Webinar: Citizens Suits

Event

September 23, 2020 | 1 minute read

---

The title of this month's Environmental Essentials Webinar was "Citizens Suits." Increasingly, opponents of pipelines and other projects are using environmental citizen suit mechanisms to create obstacles to development. This Environmental Essentials Webinar provided a tour through the various citizen suit authorities, identified valuable defenses, especially with respect to injunctive relief authorities that can shut down a project, and offered thoughts on maximizing your preparedness to resist these efforts.
