Rebecca Brown has a decade of experience in strategic communications. Over the course of her career, she has worked with clients in the energy and manufacturing industries on issues spanning exports, trade tariffs, regulatory reform, offshore drilling, renewables and infrastructure projects. She is experienced with message development and deployment, media relations, executive positioning, crisis communications and stakeholder engagement.

Rebecca joined the firm from the US Department of Energy where she served as the deputy director of communications, responsible for executing communications strategy on behalf of Department leadership for global, national and local audiences.

Prior to that, she worked on the energy teams at two international public affairs firms.
