About Jared

Jared Schuettenhelm focuses on all aspects of intellectual property, including IP litigation, IP counseling and strategy, technology licensing and transactional matters, patent royalty audits and related due diligence matters. He has represented clients in cases involving a wide array of technologies, including computer operating systems, security and encryption systems, audio processing systems, printing technologies, computer networking systems, medical devices and pharmaceuticals. Jared represents both United States and international clients, with particular experience representing Japanese clients in a variety of intellectual property matters.

He litigates offensive and defensive patent infringement disputes in courts throughout the U.S., including the Eastern District of Texas, the Northern and Central Districts of California, and the District of Delaware. Jared also represents companies in Section 337 actions before the U.S. International Trade Commission, as well as proceedings before the Patent Trial and Appeal Board. In addition to his litigation experience, Jared assists and advises clients in protecting, licensing, and transferring intellectual property. A registered patent attorney, Jared also has experience prosecuting patent applications to issue, which he leverages to help clients develop effective strategies to analyze and protect their patent portfolios.

Prior to becoming an attorney, Jared worked for nearly eight years as a process engineer and scientist in the medical device industry. During this time, he worked closely with numerous stakeholders to develop and optimize innovative products, solutions and devices. During his career as a scientist, Jared obtained Black Belt certification in Six Sigma process improvement methodology.
