The Federal Trade Commission (FTC) has announced the annual revisions to the Hart-Scott-Rodino Antitrust Improvements Act (HSR Act) thresholds and HSR filing fees, which will become effective on February 21, 2025. The revised thresholds will apply to any merger or acquisition closing on or after the effective date.

The FTC is required to adjust these thresholds annually based on changes in the gross national product and the Consumer Price Index. This year, the HSR “size of transaction” threshold has increased from \$119.5 million to \$126.4 million.

**Size of Person.** The revised size of person thresholds will generally be met if one party involved in the deal has assets or annual sales totaling \$252.9 million or more and one other party involved in the deal has assets or annual sales of at least \$25.3 million. Satisfaction of the size of person thresholds is not required, however, if the transaction is valued at more than \$505.8 million.

**Size of Transaction.** The revised size of transaction threshold will be met if the buyer will hold an aggregate amount of stock, non-corporate interests and/or assets of the seller valued at more than \$126.4 million as a result of the deal.

The notification thresholds applicable to purchases of voting securities will increase as follows:

The thresholds applicable to many exemptions, including those governing foreign acquisitions, also will increase. However, the \$500 million threshold
